

Sam Chen

Product Manager transitioning to Software Engineering

sam.chen@example.com · +63 917 555 0303 · Cebu City, Philippines

SUMMARY

Seven-year product career; recently completed full-stack engineering bootcamp; seeking junior/mid engineering roles. Comfortable bridging PM and engineering conversations.

EXPERIENCE

Senior Product Manager — FinTechCo

2020 – 2024

- Led 3 product launches across web and mobile, owning roadmap and KPIs.
- Wrote SQL queries against the data warehouse for weekly product reviews.
- Used basic Python (pandas) to prototype reporting dashboards.
- Coordinated 6-engineer pod via Jira; ran biweekly stakeholder sync.

Product Manager — MarketingCo

2017 – 2020

- Owned A/B testing program across the marketing site (150+ experiments).
- Managed stakeholder alignment across marketing, design, and engineering.

Associate Product Manager — ConsumerCo

2015 – 2017

- Conducted 40+ user research interviews; synthesized into product briefs.
- Built clickable prototypes in Figma for early concept validation.

EDUCATION

MBA — De La Salle University

2013 – 2015

Full-Stack Engineering Bootcamp Cert — Coding Dojo Manila

2024
